

CHEF™

Designed for the Culinary Artist

Fine-tuned blending control.

The true culinary professional knows there's no such thing as one blend that fits all. Each blended masterpiece requires its own specific blending speeds and durations. The Blendtec Chef makes your customized blending program a breeze.

CHEF™

Designed for the Culinary Artist

The choice of a true professional.

Food service professionals, meet your new best friend. The Blendtec Chef offers superior performance with controls that let you fine-tune your art in a way that no other blender can.

What you want, how you want it.

The Chef's innovative blend cycle memory lets you customize recipes and save them with the touch of a button. So even your novice employees can get it right every time.

Maximum versatility.

Compatible with all Blendtec jars, the Chef will help you and your staff easily undertake complex blending operations, from making sauces to smoothies to spreads and more!

Speed and power.

The Chef boasts unrivaled speed and power—making your time in the kitchen more productive, always blending your ingredients quickly and consistently.

Standard Features

POWER

Peak HP	Amps	Watts	Volts
3.8	15	1800	120

CONTROL

- Groundbreaking memory function enables you to save any blend cycle or manual operation
- 20 available speeds, with speed-up/speed-down function
- Blue LCD display
- High and low pulse

QUIET

- Optional sound enclosure reduces noise in confined work areas

VERSATILITY

- Blend, chop, grind, mix, whip and puree
- Light-touch chopping to high-power blending
- Compatible with Blendtec's patented FourSide™, WildSide® and Twister™ Jars

Additional Options

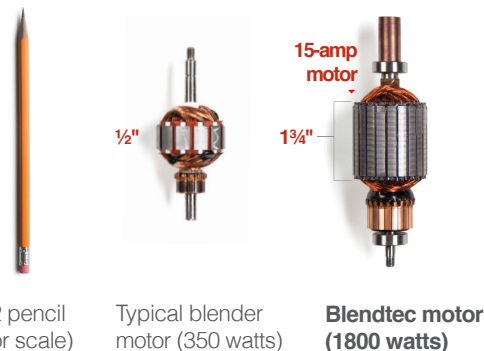

COUNTERTOP

- Can be used right out of the box with the included housing

IN-COUNTER

- Can also be installed directly into your counter top

More-Powerful Motor

WildSide® Jar

The WildSide jar's patented fifth side shifts the blending vortex to achieve even thicker, faster blends—eliminating the need for a messy plunger.

Stainless Steel Wingtip Blade

The ultra-hard stainless steel blade is cold-forged and tuned for heavy use. So it's stronger and lasts longer than lesser blades. Which is why it's warranted for the life of the jar.
